Overview

PRICED TO SELL | 2005 GUY COUACH 195 FLY

Three en-suite guest cabins, a full-beam master suite and separate captain's accommodation make this Guy Couach 195 Fly a strong proposition for buyers seeking space and privacy in a 19.60-metre motor yacht. Built in France and powered by twin MAN 1,050 hp diesel engines with shaft drives, she combines comfortable cruising accommodation with generous areas for entertaining.

The spacious saloon features light-coloured furnishings and a separate dinette beside the lower helm. An enclosed galley with updated equipment keeps meal preparation away from the main living area, while the full-beam master, forward VIP and twin guest cabin each benefit from their own shower and WC.

A large teak cockpit provides a welcoming setting for dining outdoors, complemented by teak side decks and a flybridge with an upper helm and bimini shade. A side-mounted passerelle and a lift for a tender and jet ski add to her practical deck arrangement.

Notable equipment includes updated navigation electronics and display screens, a 15 kVA generator, watermaker, ice maker and washing machine. Bose and Bluetooth audio, a lift-up saloon television and televisions in the master and VIP cabins complete the entertainment facilities.

Offering a versatile layout for family use or cruising with a captain, this Guy Couach 195 Fly deserves consideration from buyers looking for a spacious, well-equipped flybridge yacht.
